

DURAT

JOYFUL INSIDE OUT

Visually striking

Durat is a unique, sustainable solid surface material which contains recycled post-industrial plastics and is 100 per cent recyclable. Visually striking and durable Durat is a great material for example kitchens, bathrooms, restaurants, shops, hospitals, shops, hospitals, schools, ships and of course private residence.

Great in colours

The distinctive character of Durat is a combination of the illusion of a three-dimensional surface and its luxurious warm and silky feel. It is available in nearly 300 vibrant colours, all of which are available in 9 different textures. Durat also offers a unique service providing custom colours and textures.

Tools to create

The versatile material offers designers almost infinite opportunities. The Durat sheets can be used to create long seamless surfaces with various details by using woodworking tools. Seams are sanded invisible and the material can be easily repaired or refinished, adding to its sustainable qualities. Durat can also be cast into molds, which makes freeform design possible. It is hard-wearing and is easy to maintain.
